CHAIRMAN'S INVITATION

As Chairman of the Congress Organising Committee, I extend a warm invitation to all who are interested in and committed to the principles of New Urbanism, or those who are keen to be enlightened by learning more about New Urbanism, to attend ACNU2010, the 4th National Congress of the Australian Council of New Urbanism to be held at the Convention Centre in Adelaide, 27 to 30 April 2010.

The Congress theme, "From Plans To Places", and the exciting program of experienced and renowned international and national presenters, is intended to focus debate on the nexus that often exists between those who make plans, those who review and approve plans and those who are tasked to deliver plans, based on New Urbanism principles.

Following on from the success of the Masterclass and Charrette Management courses at ACNU2008 in Brisbane, these courses are again to be offered prior to the Congress from 25 to 27 April 2010. Two topical case studies in Adelaide, one inner and the other an outer suburb location will be in the spot light as part of these courses. I commend these courses to those who want to roll up their sleeves and experience New Urbanism up close and personal – but be quick as numbers are limited.

So come along, join in and contribute to the debate on what it takes to create great places that people want to be a part of and enjoy, well into the future. I look forward to meeting you at ACNU2010 in Adelaide. The Congress is also your opportunity to meet the only Giant Pandas in the southern hemisphere.

John Blaess

Organised by the Australian Council of New Urbanism

The Australian Council of New Urbanism (ACNU) represents an alliance of Australian practitioners, who are working together to improve the quality and sustainability of our urbanism. We include and welcome urban designers, architects, planners, regulators and government leaders, engineers, developers, builders, financiers, investors, educators and students as well as citizens who care about their built environment, their resultant quality of life, and sustainability.

Host City

Adelaide is a compact city of approximately 1.2 million people, situated between the beautiful Adelaide Hills and the long white beaches of the Gulf of St Vincent. Settled in 1836, Adelaide retains much of the charm and tranquillity of the past while offering all the vigour, multicultural diversity and conveniences of a modern city. Adelaide is known for its biennial Arts Festival, its many churches and graceful stone buildings and its location within an hour's drive of some of Australia's most famous and beautiful wine producing regions. Many of our delegates undertake pre or post congress activities and tours to visit South Australian attractions such as the Barossa Valley, Kangaroo Island and the beautiful Flinders Ranges, as well as other sights closer to the city. Adelaide and South Australia offer a lower-key but often more authentic and rewarding experience of Australia than that seen in the eastern states and larger cities. Adelaide's appeal as a congress / convention destination lies in its safety, the ease of getting around, with most hotels and city sights within walking distance of the Convention Centre, in its low levels of pollution, the proximity of the airport to the city, the quality of our food and wine and lower overall costs compared to other cities.

KEYNOTE SPEAKERS

Paul Murrain

Urban Designer, London

Paul is an urban design consultant, and former Senior Lecturer and Course Chairman at the Joint Centre for Urban Design in Oxford, England. From May 2002-April 2005 he was Senior Design Director at HRH The Prince of Wales' Foundation for the Built Environment. Paul was appointed as Visiting Professor at the University of Greenwich in 2007. He is now a Senior Fellow at the Prince's Foundation.

Amongst others Paul is currently working on several projects as urban designer to Beyond Green sustainable strategists and their development company Blue Sustainable Living. The two companies set themselves the highest standards of sustainable development and believe traditional urbanism is a fundamental component of that endeavour.

Since 1993, he has collaborated with leading USA New Urbanists Duany, Plater-Zyberk (DPZ) on several occasions both in the USA, Europe and Malaysia. In 2007 Paul was invited to join them to develop a plan for a new settlement near Inverness, Scotland. He has also taught on their postgraduate course in Suburban and Town Design at the University of Miami.

During his time in the USA he was invited to Yale for studio teaching and reviews.

Paul was a member of the Office of the Deputy Prime Minister's Design Coding Advisory Panel. Prior to that he was asked to advise the office of the ODPM on matters related to New Urbanism and urban design codes and was invited to join the Deputy Prime Minister and his fact finding team in the USA in 2003.

In 2008 he was been appointed to the UK Government's Commission for Architecture and the Built Environment (CABE) Expert Panel on Strategic Urban Design.

Paul has carried out many consultancy commissions in Australia, with ESD and he has undertaken visiting lectureships at the Universities of Sydney, Melbourne and Adelaide.

He is joint author of a book entitled "Responsive Environments: A Manual For Designers" which sets out the design qualities necessary to produce a physical environment that is choice laden, interactive and essentially democratic for everyday users of the public realm of our towns and cities.

Paul has been a member of the Congress for The New Urbanism in the USA since its inception in 1992.

NCI Charrette Planner® Certificate Course

As a prelude to the National Congress, David Brain and Stephen Bowers will facilitate an NCI Charrette Planner Certificate course in Adelaide. This certificate is geared towards town planners, community engagement practitioners and development managers from the private sector, local and state government. This information is invaluable both for those who hire others to conduct charrettes and for those who wish to conduct and manage charrettes themselves. By the end of the three day program attendees will have practiced the complete process for planning a charrette.

The program will also be co-led by two leading Charrette practitioners, David Brain from Florida, USA and Stephen Bowers from Novus Urban, Queensland providing Charrette examples, logistics, planning framework and other input detailing how Charrettes and Enquiry by Design are conducted in Australia. David Brain is an Advisor to the NCI Charrette System for sustainable community planning, and Stephen Bower is a highly experienced charrette leader, manager and lead urban designer.

This is the second time this course has been offered in Australia and represents a unique opportunity for participants to develop skills in the processes of collaborative and dynamic planning. The course structure provides a unique opportunity to obtain an internationally recognised professional certification tailored to ensure its applicability in Australia.

About the NCI

The National Charrette Institute (NCI) is a non-profit educational institution based in Portland Oregon, USA. They teach the transformative process of Dynamic Planning to create healthy community plans. They teach professionals and community leaders Dynamic Planning, a holistic, collaborative planning process that harnesses the talents and energies of all interested parties to create and support a feasible plan. They advance the fields of community planning and public involvement through research, publications and facilitation. For more information on NCI and its courses, see www.charretteinstitute.org

An Introduction to Australian New Urbanism presentation will include:

- An Alternative to Sprawl
- An Urban Response to the Climate Crisis
- Delivering Prosperity, Liveability and Beauty, and
- Deeper and Faster Implementation

The Australian Council for New Urbanism offers this public presentation led by Chip Kaufman, architect and urban designer, among the founders of Australian New Urbanism, and Director of ESD based in Melbourne (www.ecologicallysustainabledesign.com) together with other leading new urbanists.

Australian New Urbanism is a rapidly growing and evolving practice, with strong values and on a steep learning curve. Its basic aim is to improve the urban sustainability, vitality and quality of life for Australian towns and cities.

The policies within the 30 Year Plan for Greater Adelaide which is the guide for its future growth and redevelopment are largely based on Australian New Urbanism (without saying so directly), and New Urbanism has learned much from Colonel Light's original plan for Adelaide.

Catering to Adelaide's elected council members, civil and traffic engineers, urban designers, landscape architects, town planners, architects, students and the general public, this presentation will clarify how urban design and development affect each and every one of our daily lives, and how we all can and should work together to forge a more liveable and prosperous future for ourselves and future generations.

Be one of the first guests to enjoy the recent \$52 million redevelopment at the Adelaide Entertainment Centre and enjoy good food, fine wine and reflect on the Congress thus far. An insightful presentation by Gilbert Rochecoste, founder of The Village Well titled “Place-making beyond Bricks and Mortar” will provide a new dimension to the evening.

FIELD TRIPS

Field trips around metropolitan South Australia will be conducted on Day 2 (Thursday 29 April 2010) of the congress. Please select the field trip you would like to attend on the registration form. Field trip spaces will be allocated based on order of receipt of registration forms. In the event that a field trip becomes full, you will be offered your preference of the remaining field trips.

Adelaide CBD South

Attendees will participate in a walking tour of the South East quarter of Adelaide which will showcase Lights plan for Adelaide and how Adelaide is adapting to the delivery of housing in the City.

The tour will take in the redevelopment of Adelaide City Councils works depot, The Southcott redevelopment, Forme Projex in Sturt St plus Carrington / Halifax Streets generally

Mawson Lakes

Mawson Lakes commenced in 1998 on degraded stock paddocks 12kms north of the Adelaide CBD. In just over a decade, it has evolved into a vibrant mixed use community with over 10,000 residents, 4,800 workers and a student population in excess of 6,000.

The tour through Mawson Lakes will explore the early neighbourhoods of the development that have set benchmarks in Australia in terms of suburban housing density and innovation. The evolving mixed use Town Centre Precinct (Mawson Central) will also highlight the projects TOD design principles and product diversity within a "Main Street" precinct that has achieved wide market acceptance in less than 7 years.

Lochiel Park

The Lochiel Park Green Village development in Campbelltown in Adelaide's north eastern suburbs has embedded sustainable living principles so successfully into the fabric of its residents' everyday lives that the development has become synonymous with sustainability. In essence, the multi award winning Lochiel Park project is a green development with a pulse, populated by an enlightened community bound by shared values and a strong desire to demonstrate those values through their interaction with the environment.

A prime example of this is the experience of several residents who have found themselves in credit from their electricity use. The combination of photovoltaic cells which generate solar power and an EcoVision utility monitoring system – with both technologies in every home - has enabled residents to take control of their power use and minimise the use of electrical appliances around the home. Through its residents, Lochiel Park is fulfilling the promise of its original vision as being the leading green demonstration village in Australia.

Lightsview

Attendees will see a new urbanist development in the actual delivery phases featuring walkable neighbourhoods, pedestrian friendly and connected both internally and to the broader existing community. Featuring a wide range of built form outcomes ranging from affordable housing through to premium stand alone homes.

Alan Miller, the Project Director of the CIC/LMC Joint Venture will provide an insight into the development so far and what is to come.

Cancellation Policy

By completing and submitting this registration form, you are indicating your intention to attend the congress and you will be liable for a cancellation fee if you are unable to attend. Registration cancellations must be sent in writing (mail, fax or email), to All Occasions Management. Registration cancellations received up to 30 days prior to the congress will receive a full refund, less a \$110.00 handling fee. Registration cancellations received less than 30 days and up to seven days prior to the congress will receive a 50% refund. No refunds will be given for registration cancellations received within seven days of the congress; however a substitute delegate may be nominated. Refunds from any deposits forwarded to hotels, tour companies or other related business will be at the discretion of the supplier.

TRAVEL & ACCOMMODATION

Travel

All Occasions Management is pleased to offer the services of our in house travel management company, Travelscene at All Occasions. For flight bookings, please email travel@aomevents.com with your departure point and desired arrival and departure dates and times. Please enter the congress name in the subject header. For any other travel needs with the exception of congress accommodation and program details please visit alloccasionstravel.travelscene.net.au.

Accommodation

Accommodation has been reserved at several hotels with special congress rates when booked through All Occasions Management. Please refer to the congress website www.alloccasionsgroup.com/ACNU2010 for full hotel descriptions and contact details. Accommodation rooms are limited and allocation will be strictly on first-come first-serve basis. As this is a busy time in Adelaide we encourage you to book your accommodation as soon as possible to avoid disappointment.

Accommodation Booking and Payment

A credit card guarantee will be required to reserve your accommodation, regardless of the method of payment for your registration fees. These credit card details will be passed on to your hotel to guarantee your reservation. A reservation will not be made on your behalf without a valid credit card guarantee. It is at the discretion of the accommodation provider if this card is charged prior to arrival. If you have any queries regarding your accommodation booking, please contact the Congress Organisers, not the hotel.

Late Arrivals

Please notify All Occasions Management in writing if you will arrive at your hotel after 6.00pm on the day of arrival. Failure to do so may result in your room being released. A penalty may be charged should you not arrive on the date for which you have booked. In this instance, your subsequent night's accommodation will be cancelled and may be re-sold without notice.

Rates and Terminology

All rates are in Australian dollars inclusive of GST and are for room only unless indicated otherwise. All rates refer to single, double or twin share unless otherwise indicated. 'Single' a single occupancy room. 'Double' a room with one double or queen bed. 'Twin' a room with two beds.

Accommodation Alterations and Cancellations

Alterations or cancellation of hotel accommodation must be sent in writing to All Occasions Management, not to the hotel. Please see below for cancellation conditions for each hotel. You will be required to accept these terms and conditions when completing the registration form. If you do not accept to the terms and conditions, accommodation will not be reserved.
