

MY DEVICE MY VOICE - GETTING HEARD IN THE COMMUNITY

Author

Bright, Ryan

Short Abstract

I am eighteen years old and I have cerebral palsy and complex communication needs. In my presentation I will talk about my enrolment at tafe, participating in community work experience and taking my communication device to the streets with my therapists. I will also talk about my experiences with a variety of communication devices and discuss the devices I have found have made the most impact on my ability to become a stronger voice in my community.
