

MOUNTING SYSTEMS: TAKING YOUR AAC TO THE STREETS (AND BEYOND!)

Authors

Harraway, David

Phuah, Trina

Short Abstract

Without an appropriate mounting system, a person with complex communication needs may not be able to access or use their speech generating device when and where they need it. This presentation provides an overview of commercially available mounting systems and introduces clinical considerations for mounting to enable people with complex communication needs to take their voice to the streets and beyond.
