ABSTRACT SUBMISSIONS

The IAGOD 2010 Symposium Organising Committee invites you to submit abstracts for consideration in the Symposium program. Lodgement of an abstract does not mean automatic inclusion in the Symposium program.

Abstracts must be submitted by Friday 29th January 2010 for consideration. Presenters will be advised in late February 2010 if and by what mode of presentation their paper is accepted. If you submit more than one abstract, please seriously consider whether you will be submitting papers for all the abstracts that you have submitted. The Symposium Organising Committee will be using these abstracts to organise the contributed paper sessions. Contributed paper presentation slots are limited. Please indicate if you would prefer to submit a poster option. Final assignment of oral or poster presentations will be at the discretion of the Local Organising Committee.

Field Trip 3. Broken Hill

Broken Hill's massive orebody, which formed about 1,800 million years ago, has proved to be among the world's largest silver-lead-zinc mineral deposits. The orebody is shaped like a boomerang plunging into the earth at its ends and outcropping in the centre. The protruding tip of the orebody stood out as a jagged rocky ridge amongst undulating plain country on either side. This was known as the broken hill by early pastoralists. Miners called the ore body the Line of Lode.

Information regarding this field trip will be released soon. Please tick the appropriate box on the registration form if you wish to receive more information via email when it is released.

Field Trip Cancellation Terms and Conditions
